FACULTY HONOR ROLL

We of the Class of 1972 feel that our yearbook would not be complete without our naming several instructors who have made this educational experience both rewarding and enjoyable.

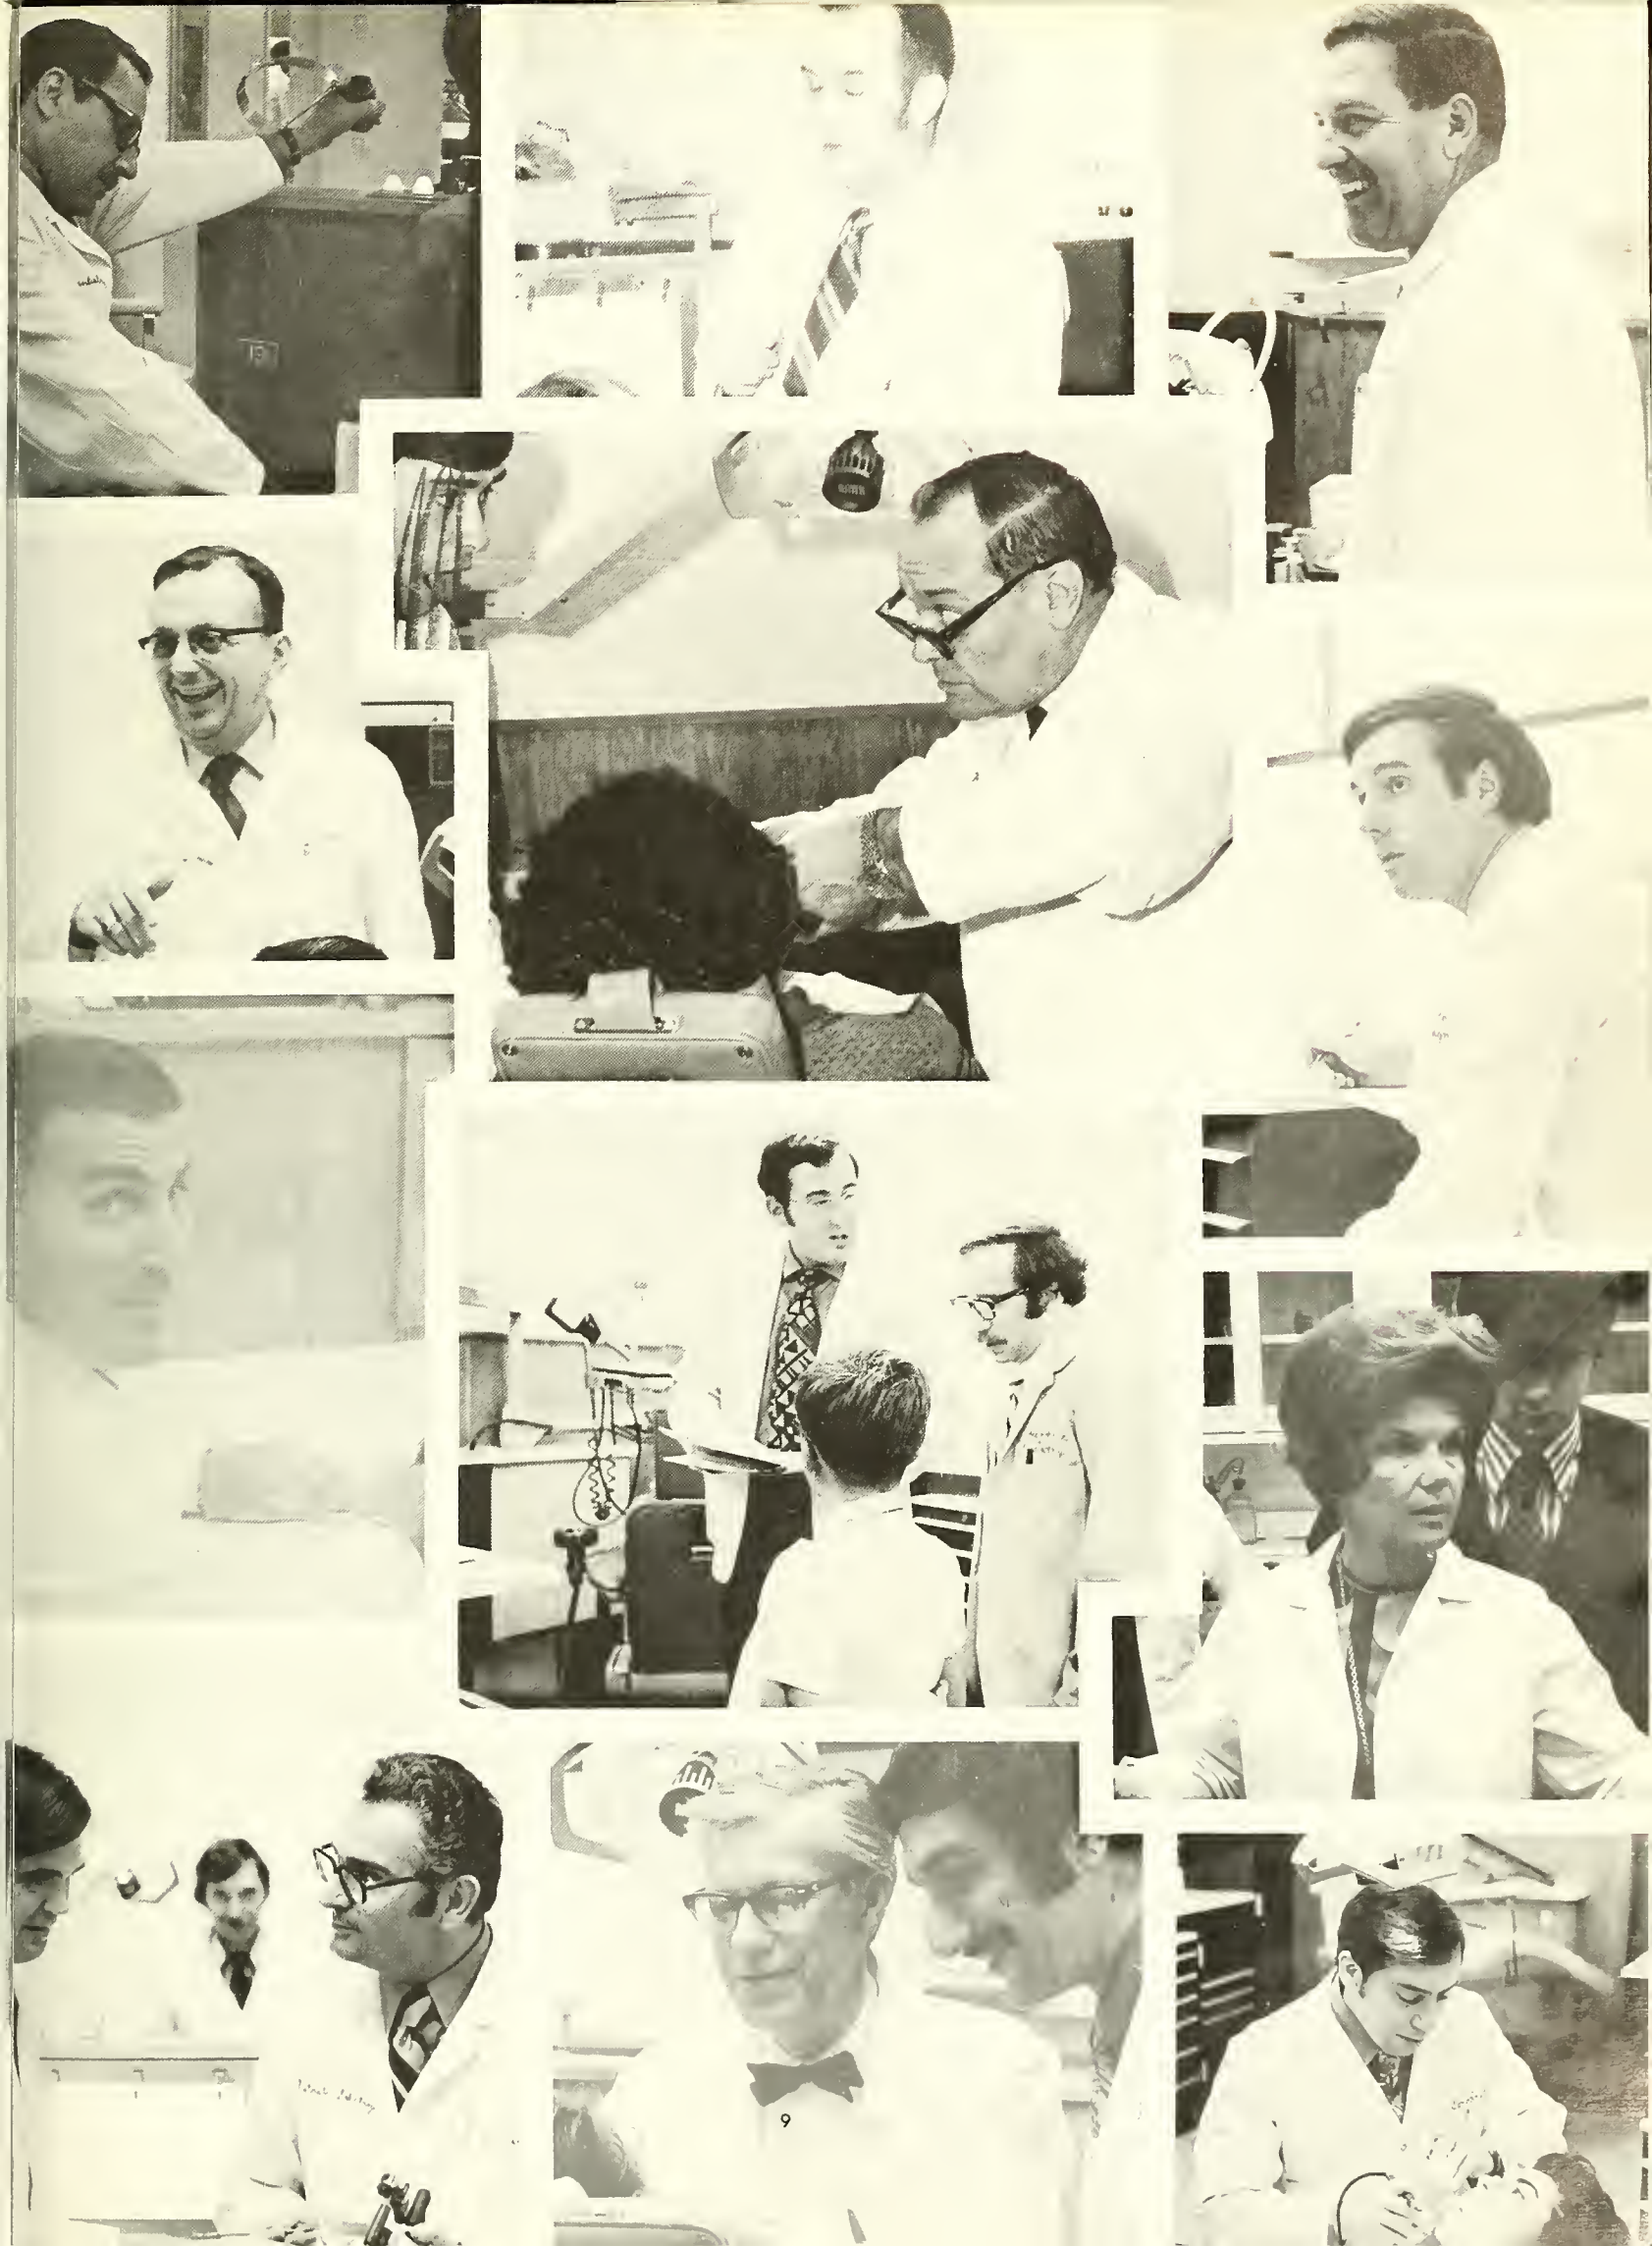
These instructors represent, in our view, the epitome of the teaching profession. They have always been available whenever we needed them, and they have never failed to share their knowledge and experience with us.

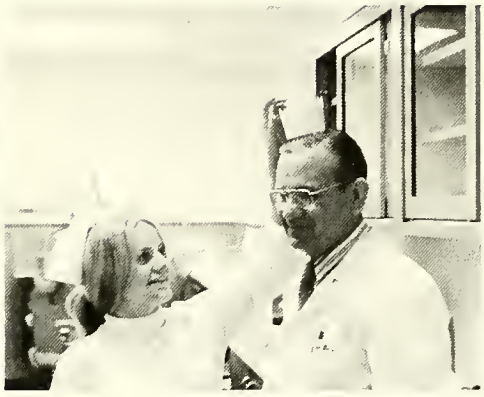
The outstanding professors from our Junior and Senior years are:

Dr. Frank C. Jerbi
Dr. Mark L. Wagner
Dr. George F. Buchness
Dr. James E. Fleming
Dr. Jose H. Diaz
Dr. Errol L. Reese
Dr. John F. Hasler
Dr. Rodger F. Sisca
Dr. Wilbur O. Ramsey
Dr. Frieda G. Rudo
Dr. Russell Gigliotti
Dr. Herbert L. Livingston

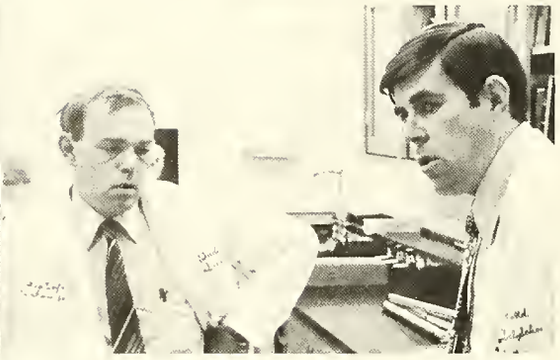
The outstanding professors from our Freshmen and Sophomore years are:

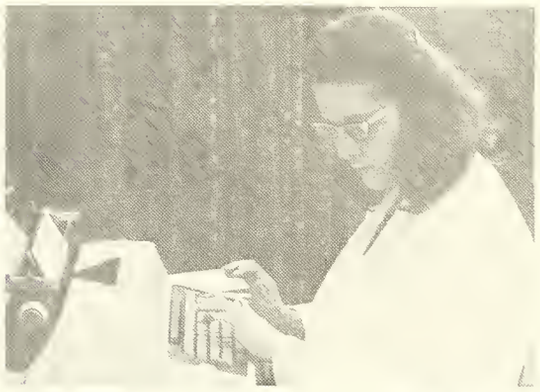
Dr. Werner Fischlschweiger
Dr. Frank J. Sinnreich
Dr. Russell Gigliotti

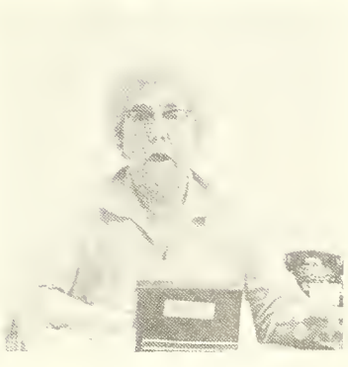


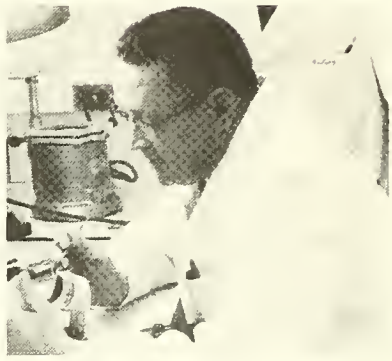


DEPT. OF ORTHODONTICS









THAT YOU MAY KNOW US BETTER:

Four years ago, as lowly, short haired freshmen, we were the next to last class to enter the time worn halls of the Dental School on Lombard and Greene Streets. Now with our hair longer and at an average age of 25.5 years, we emerge as the second class to graduate from Hayden Harris Hall and the first class to be graduating with a class of Dental Hygienists.

Approaching graduation, our lines will average an even six feet and a comfortable 172 pounds. While it is true that 39% of us have gained an average of 9 pounds over the past 4 years, that really is not too neglectful considering the 3 years of happy marriage and home cooked meals that 79% of us have enjoyed. Our single members may not have enjoyed as many home cooked meals but they did find time for slightly more than 2 dates per week during their senior year.

Our financial situation varied widely but on the average 40% of our education was paid for by our parents. Upon graduation we still will be in debt by about $4,000.00 and we still have a few more payments to make on our 1968 car. Most of the $4,000.00 that we owe has come from educational loans that 79% of us have received. Scholarships have also aided some 74% of our class with an average of $1,200.00.

To help meet the payments on cars (27% of which are foreign made and 40% are Fords or Chevrolets), apartments and our many other expenses, 75% of us have held part time jobs during the school year and earned an average of $3.45 per hour for ten hours per week. While most of us worked as hospital laboratory technicians or blood bank technicians, some of us worked as ushers, pool room attendants or bartenders.

In our few hours of free time we either go to our favorite spot in Baltimore (which seems to be bed) or occasionally watch our favorite sports program on T.V.

Our educational training is substantially greater than that of our parents; only 41% of our fathers and only 20% of our mothers are college graduates.

While in dental school, 6% of us considered our training superior and 69% of us considered it adequate. We feel that the strong points of our education have been in Pathology, Pharmacology and Pedodontics, while Physiology, Fixed Prosthodontics, Operative Dentistry and the coordination of the basic sciences and clinic left something to be desired.

Knowing four years ago what we know now, 70% of us would have pursued the same course of study.

As we approach graduation our future plans are still somewhat unsettled; 33% of us desire training in a dental specialty and many of us are waiting to hear from the Armed Forces. As for private practice, 60% of us plan to enter into group practices while only 10% plan to enter into a solo practice; the other 30% are still undecided.

This is the class of 1972.

Treasurer . . . . . LEO J. ROSENTHAL

Historian . . . . . LAWRENCE A. KAPLAN

SENIOR CLASS REFLECTIONS

The last three years have gone quickly by.

Some have worried about what internship to apply to . . .

Some have worried what to do now that they are getting out . . .

Some have looked for something to do beside dentistry . . .

It may not seem so bad now that we are almost done . . . we were exposed to a great deal and learned a lot but what type of education did we receive?

I guess we won't know the answer for a few years to come . . .

One thing we do know, our education has only begun.

THE GRADUATING CLASS

OF

1972

MICHAEL FRANCIS AGNINI
Mike

Pompano Beach, Florida . . . University of Wisconsin; Broward Junior College; Florida State University, B.A. . . . Married . . . Gorgas 3, 4 . . . Gamma Pi Delta 3, 4 . . . Seminole . . . No. 1 – alphabetically speaking! . . . Future – U.S. Air Force.

MARIELOU ARCILLA
Marielou

Tabaco, Albay, Philippines . . . Philippine College, A.A., D.M.D. . . . Single . . . Future – Associateship.

Dr. KING.

Originator of the King Safe System of Painless Dentistry and Inventor of the "Natural Gum" Set of Teeth.

NO PAIN, NO HIGH PRICES

My $8 sets are the most lifelike and finest fitting plates that dental science can procure. I have the reputation of making the most natural looking, the finest fitting and the best wearing teeth. No set ever leaves my office until our patron is perfectly satisfied as to fit and appearance. I give my personal guarantee for 10 years with each set. No more than $8 charged for the best set at Dr. Kings office unless a special set is desired.

DON'T BUY OLD STYLE TEETH **Full Set $5** PAINLESS EXTRACTION FREE

Dr. King's latest invention the NATURAL GUM is a wonderful improvement over the old artificial gum. It makes impossible to recognize artificial teeth in the mouth.

This is the only office in LEWISTON where gold crowns and teeth without plates undetectable from natural ones are inserted positively without pain.

CROWN and BRIDGE WORK $5.00 GOLD FILLING, $1.50 up OTHERS, 50c up

THE GRADUATING
DENTAL HYGIENE
CLASS OF 1972

As the first graduating class of Dental Hygiene, we would like to express our gratitude for all the assistance we received from the faculty members of the Dental School. We hope we have helped to establish high standards for the succeeding classes. When we graduate we hope to establish an equally high standard in the community.

MEMORIES OF THE CLASS OF 1972

Our Freshman Year:

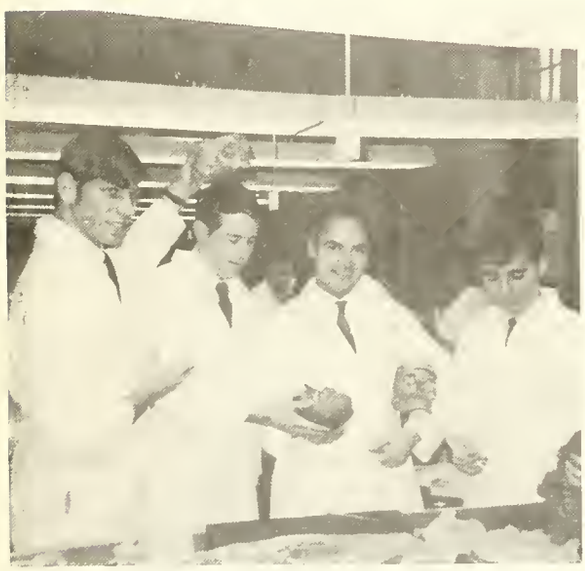
Welcome to the University of Maryland Dental School . . . "My door is always open" . . . you are 300 pages behind in anatomy and histology and remember that B.D.S. is your most important subject. Those are the events that sum up the first three days of our dental education and forecast the remaining days of our freshman year; thus it is easily understood why "Mission Impossible" was the title of our first skit.

Some were able to stay a day ahead of the assigned work but for the greater majority of us we were lucky if we were only a week behind . . . this is how you carve wax . . . okay, now go carve some wax and it better be good . . . that looks like a tree stump, you better get a Law School application while there is still time . . . take your 15-28-79-46RL angle beveled chisel and trim your cavo-surface marginal line angle on your mesial buccal gingival line angle below your occlusal mesial buccal margin . . . and let me see it when you get done . . . the *back* of the tooth? Where is that?

After ten teeth at sixty-five cents a tooth you finally learned what all that jiberish was. Come June and 8,000 new words later some wondered why they treated us so kindly and we also wondered what it looked like in the oral cavity and whether decay really wasn't just a pencil mark on an ivorine tooth.

WHEN YOU POTENTIATE THE NOMEN-CLATURE RULES OF THE STOMATOGNATHIC SYSTEM, YOU SIMULTANEOUSLY OBVIATE THE CENTRIC SUPPORTING CUSPS.....
LEBOWITZ

OUR FRESHMAN YEAR



MEMORIES OF OUR SOPHOMORE YEAR:

With one year under our belt we came back cocky and ready to assert our superiority in the Dental School. Some returned with their hair a little longer and our pants were those nasty unprofessional bell bottoms and flares and many of us came back married (some unexpectedly, some planned well ahead).

This was the year of B.D.S. lab, after B.D.S. lab, after B.D.S. lab . . . after B.D.S. lab. There was the great "40" scare . . . we all remember that, it was included in that all inclusive crown and bridge course, the one that was *so complete* . . . the one in which it took us five months to finish a three unit bridge; oh, those were the days!!

It was the year that many of us wore black arm bands against the war and how surprised we were when Dr. Ramsey and Dr. Johnson did the same.

We were overwhelmed by Dr. Jerbi, the ravish and energy with which he mixed alginate . . . oh that fateful day when he broke the steel spatula!!

It was the year we met Dr. Levy, that kind, soft spoken, mild mannered pathologist who never spoke nasty to anyone.

Microbiology was the big one of the year with nose swabs and Dr. Krywolap . . . remember, if it is too hot for you, it is too hot for the bacteria. The tests were so clear and the labs so much fun, such an easy course we never had. Let us remember those famous words of Dr. Schneider, "only *five* minutes to gooo!"

Still, we hadn't had any patients of our own and some frightfully looked ahead to the coming year . . . how can you work without being able to unscrew the tooth or approach the problem from the hole in the rear of the dentiform.

Let us not forget those stimulating lectures from periodontics . . . we were told and believed that perio was the way to better dental health . . . that oral physiotherapy was the cornerstone to dentistry. The perio Department really got us excited about saving teeth but little did we know that those lectures of the sophomore year would be the last time for the next two years that we would see so much of the perio department.

OUR SOPH YEAR

The ladder to success is paved with smiling faces.

The readings are great, what do you mean the plug isn't in.

A stimulating lecture at B.C.D.S.

One shot and I'm good for the whole day.

A Horny David Vine.

Next to your touch, only Downy softness will do.

What da'ya say we move the whole team to Tampa?

Will the real Dr. Johnson please bow his head.

You say you're a General, in who's Army?

The Pistachioed Romeo

Don't step on my contact lens!

The last of the hot dogs!

That's a Mastrola spaghetti maker.

Class candid photographer as seen zooming in on 5 year old girl.

O. K. fella, let's see you bite into one.

Notice my white socks.

Hair control by Vitalis, ball control by klutz.

Try it, you'll like it.

It's a good thing Dr. Dosh and Miss Trageser can't see me.

Tex Hooper frying potato chips.

Watch it Mike, she's married!

Maybe this is why everybody goes to Ginos.

You lose . . . you tell him about scope.

MEMORIES OF OUR JUNIOR YEAR:

We are moving to the new School fellows but it won't be ready in time for summer clinic. This was a hectic year . . . every Monday there was a race for the sign up sheets for treatment planning and radiology appointments . . . every Friday we fought our way to the sheets to sign up for clinic appointments . . . the first few months we just kept picking with our explorers to make sure it was decayed. With the start of the second trimester we finally plunged head first into the oral cavity.

We had our little scandals; we had our confrontations (thank you C.D.); and when it was all over, we were back again wondering what happened. We fought with the computer that never seemed to be correct . . . we searched nearly in vain for an endo patient . . . we had a beautiful three unit bridge to do if only we could finish the perio.

We learned a lot, relearned a lot, and found out how much we hadn't learned; but we were ready for the last big year; oh, by the way fellows, there won't be any summer clinic . . . we want you to be able to earn some money. . . .

BUT I THOUGHT WHEN YOU SAID WE WERE GOING TO SCALE THE ALVEOLAR CREST YOU MEANT.....

SALIVA

And out again I curve and flow
To join the brimming river,
For men may come and men may go,
But I go on forever.

Tennyson

DENTAL NURSES

I sing a long neglected dame,
Let happy patients all proclaim
The wonder of the dentist's name
Without a tiny curse;
Let others tell with loudest praise
Of super-dentists and their ways,
I hymn the light of all their days,
I sing the dental nurse.

Not every pink and girlish thing
That lets the front door slam,
The ancient rock-like NURSE I sing,
Who knows of rubber-dam.
That, old as mountains and as strong,
Who with us all has been so long,
She never will nor can do wrong,
Ubiquitous dental nurse.

Edward Samson
TOOTHFUL ESSAYS

IT'S JUST A LITTLE SLEEPY JUICE FOR THAT NASTY OLD TOOTH.....

I wish the truck strike would get over so we could get back to work.

I wish I had more hands!

You mean the beer makes me virile!

Ah – to be or not to be – that is the question.

Whaddya mean Siegel's selling bathroom passes.

This little piggy went to market.

Hey Peter, this is just like good ole army chow!

There's got to be an easier way to meet girls.

There's got to be an easier way to . . .

I thought only pickles came in barrels.

Lookin good.

OUR SENIOR YEAR

After the permanent we'll give you a style and set.

Whaddya mean your ear is numb.

I'm thinking of going to dental school next year.

I'll be right with you as soon as my nails dry.

I knew I waited too long for that last adjustment.

The kid beat me 3 times in gin.

Would you buy a watch from this man?

Listen, I'm head of the fourth district and when I say ham and cheese on rye, I mean rye.

Frank, you do a down and out. Jordan, you run a post and Jared, you run the concession.

Strong like ox. Smart like lima bean.

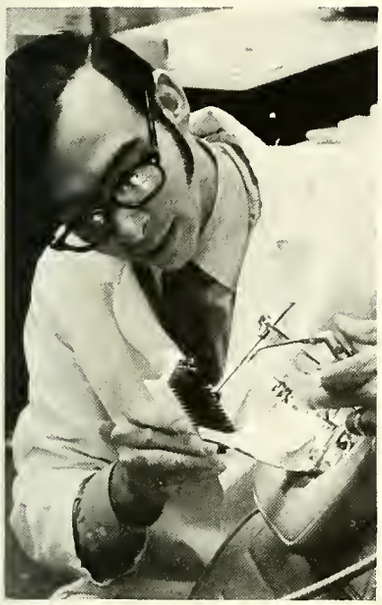
I would get 20 years for this!

Ahh! I brain concussion.

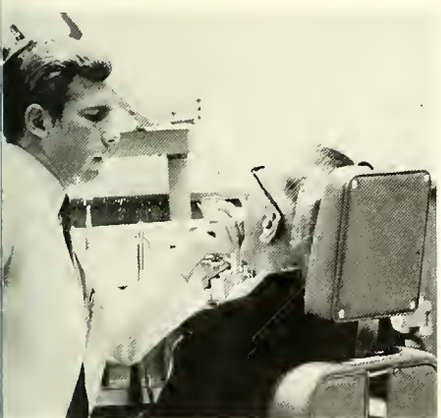
I also do a good eagle and a wolf.

You swallow another instrument and we're through.

WOULD YOU LIKE TO CONSULT WITH DR. DOSH'S TISSUE COMMITTEE?



This is a severe case of tooth-brush abrasion.



They'll be OK just as long as you don't use any "M" sounds.

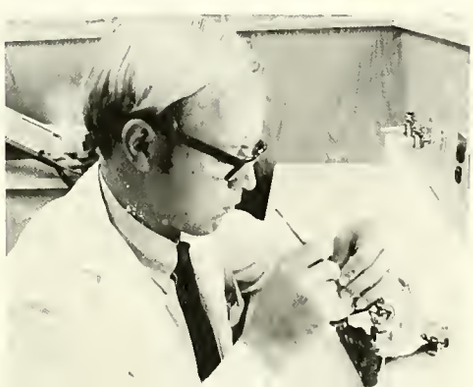
The "Jewish Connection"

I like Carry Back in the 4th at Laurel.

If I could only get this instrument out of my nose.

Gee mom, arts and crafts is neat, see you at the end of the summer.

DOCTOR, PLEASE STOP REFERRING TO ME AS YOUR "VIRGIN CLASS 2"!



Curet, stone or Kathy . . . which'll wear out 1st.

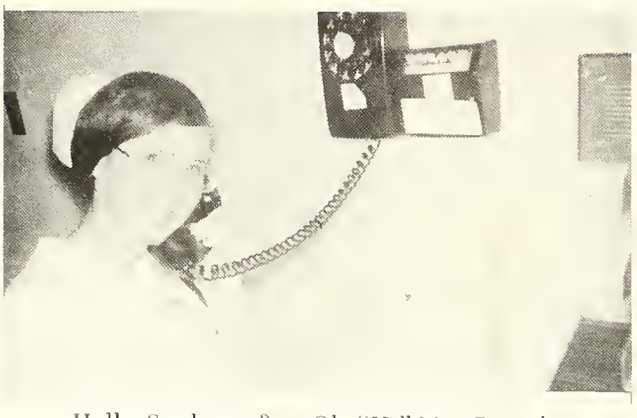
Reappoint this patient again . . . and again . . . and again . . . .

Are you *sure* this will slim down my thighs?

Vel now, whot have ve here?

Do you believe in the tooth fairy?

Time sure does fly when you're having fun!



Hello, Say honey? . . . Oh, "Hi" Mrs. Pepin!

Who gives a _____?

Doin' our thing.

Maryland "runs the show"!

I hope you realize I'm not taking *No* for an answer.

Putting the table clinic to bed.

'Julia, what's next?

Of course we're professional – we wear white undies.

Forget Zaberers Janet – we're hungry **NOW!**

So tired it's FUNNY!

THE JUNIOR CLASS

Well, we finally made it past the half way mark, and, like a well conditioned team of dental students we all worked "together" to accomplish our own ends.

Those never ending lines of support for radiology, perio, TxPx's, operative, endo, etc. seemed to indicate a new trend in dental education . . . so new in fact, that one of its foremost proponents (Chuckling Chuck) suggested a whole new dental degree . . . the Eye-Ear-Mouth and "Throat" man.

So we've made it this far. We've proved that we can sit in lecture for 5 straight hours at a time . . . we've shown that we can complete 1½ hour appointments in 2 hours . . . we've even managed to save our lunch until 1 P.M. instead of the usual noontime.

Result: we're ready to move on to bigger, better, and shorter things . . . Bring on the senior year!

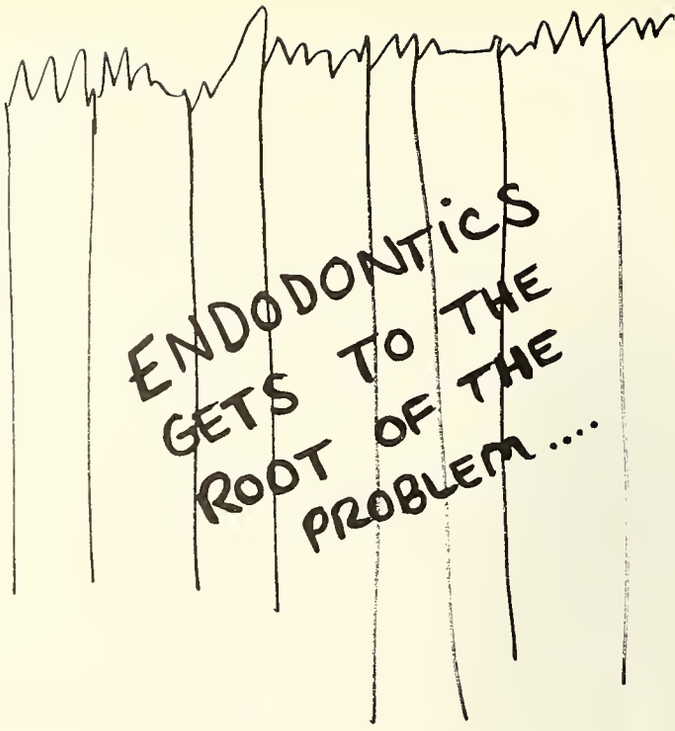
First row: Crowe, Bray, Heise, Girlinghouse, Eisen, Banner, Hanover, Egber, Cullen, Shofnos. *Second row:* Mew, Goodman, Civjan, Drecksler, Klein, Kotzias, Sittman, Kassolis, Setzer. *Third row:* Staneck, Schulman, Holmes, Kright, Lamb, Cooper, Jones, McCaffrey, Scoppettuolo, Smith, Keeler. *Fourth row:* Villa, Little, Paper, Dempsey, Zalucky, Hoover, Davenport, Juilfs, White, Kelly, Rogers, Slade, Wiltison. *Fifth row:* Taylor, Koenig, Graham, Rohter, King, Bealefeld, Barto, Casper, Olson, Wright, Liszewski, Malinow.

Dr., this is the way you're supposed to do it.

What'sa matter little boy?

Indirect vision!

What are you doing Friday?



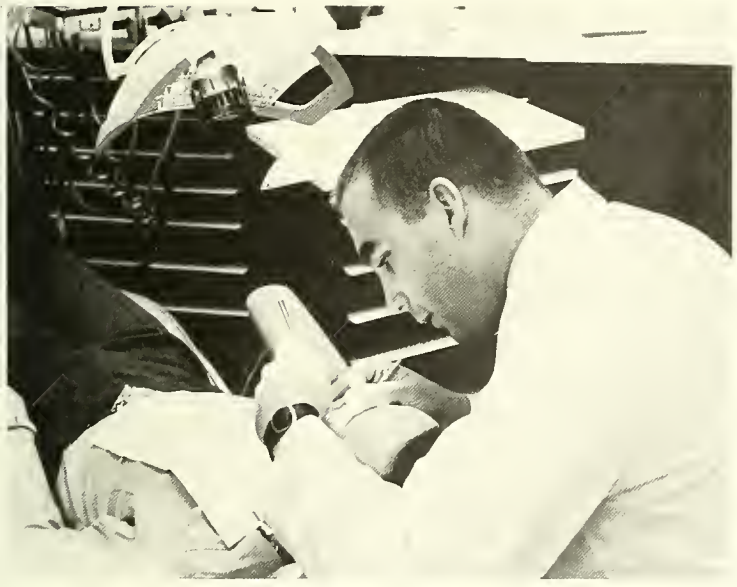
THE JUNIOR CLASS

Does he think he's going to put that stuff in my mouth again?

I wonder if my horse is winning at Pimlico?

5 minutes to take-off!

Who said clinic was harder?



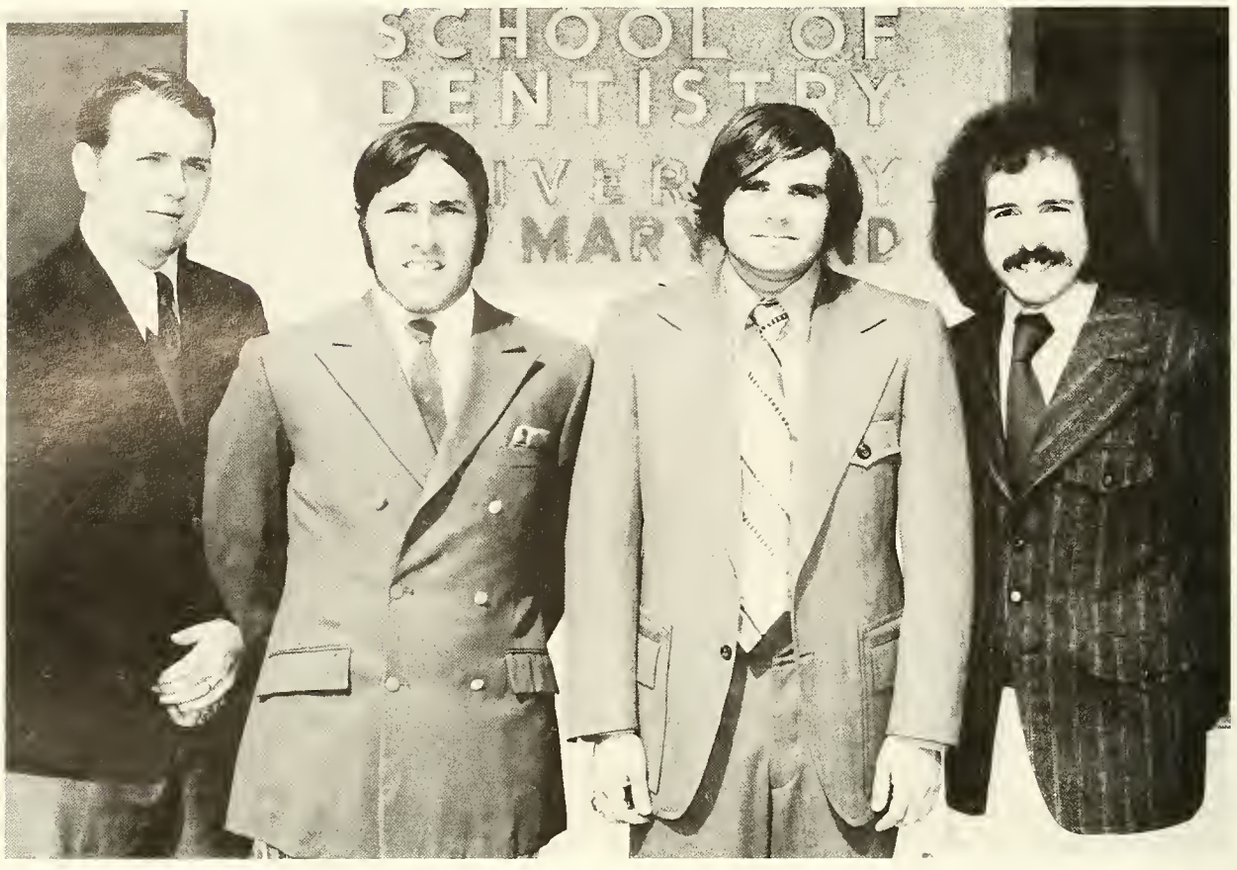
This should make blowing your nose easier.

You should see the slides I'm studying!

Get your finger out of my eye!

Please, I'd rather do it myself!

THE SOPHOMORE CLASS



President . . . . . BURT A. JORDAN

Vice President . . . . . MARK E. LeMAR

Secretary . . . . . MIKE MILLER

Treasurer . . . . . BARRY COHEN

"To everything there is a season and a time
to every purpose, under Heaven. A time to be . . ."
dentists!

Our first year as (dental) academicians was over and we began our second year as (dental) laboratory technicians looking forward to January 12, when members of the class would begin to examine and treat real live patients.

The year saw us through innumerable exams and practicals; retakes and retakes of retakes; evenings and Saturdays in the labs; always behind, always rushing, never catching up; a sudden change in command; coffee in the student lounge; pig jaws in 2-D-16; and daily, "Gentlemen, I just have one announcement," which really meant six.

The Thermatrols groaned; the pickling fluid evaporated; the temperature (and our waxed dentures) fluctuated; models disappeared; and radios were forever banned.

Slide tapes were listened (?) to; CPC's were missed; injections were given; pass/fail failed; cornflakes survived; and sandwiches were eaten with the Dean.

Spring vacation vanished; jewelry was cast; handpieces quit working; talking in the lecture hall continued, and Doug said, "Yes."

But we survived!

Two more years . . . .

THE SOPHOMORES

First row: B. Jordan, J. Santacroce, C. Braverman, D. Hightower, B. Cohan, H. Davis, B. Felder, H. Cohen, P. Crawford. *Second row:* C. Tomeo, J. Duguid, G. Palank, G. Lauterbach, H. Kessler, A. Katz, W. Hesse, A. Golden, H. Siegel, S. Corbin, R. Tami, B. Goldberg, M. LeMar, A. Berne, S. Friedman. *Third row:* M. Torres-Diaz, A. Alperstein, E. Hnarakis, V. Petrazzuolo, R. Berman, R. Harkins, T. Keller, B. Kale, M. Goodman, T. Cox, R. Eskow, S. Fryling, R. Lee, W. Burnette, T. Nankivell, B. Weiser, G. McManama. *Fourth row:* J. Tullner, N. Levy, J. Abid, A. Wimer, A. Shernoff, S. Kusnick, K. Sachs, B. Jenkins, N. Leboe, R. Goodman, M. Schulz, R. Kodeck, T. Smith, M. Gertzberg, J. Massing, R. Snyd, M. Taff, S. Birkitt, K. Oppenheim, H. Strauss, S. Selle, J. Leonard, M. Miller.

THE SOPHOMORES:

You've never done this before?

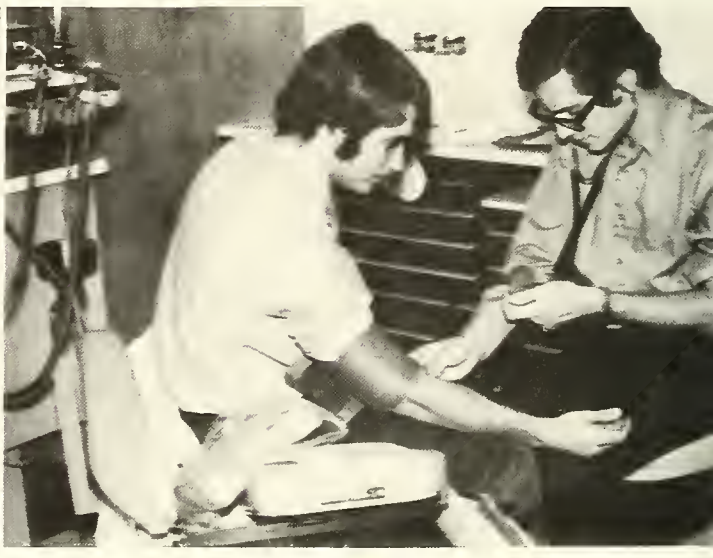
I told you about wearing your tie like Morey.

You'll always be my favorite patient.

So that's what those are for.

Bring on the patients!

These extraction forceps don't seem to hold.



I think it's 600 over 780.

– and then you suture the tongue to his ear.

If only I could understand what he's saying.

Do it again? and again? and again?

I'd like to thank the 128 people receiving A's.

You're breaking my hand, Jordan.

I'll take the Colts and 21 points.

Cornflakes forever.

THE FRESHMAN CLASS

President . . . . . PAUL A. GOLDSTEIN

Vice President . . . . . KARL J. ZEREN

HAYDEN HARRIS HALL

University of Maryland, School of Dentistry

herald

This year marked the inception of a new and very well received biweekly newsletter, the HAYDEN-HARRIS HALL HERALD, to the University of Maryland School of Dentistry.

The Herald is published twice monthly and includes contributions from all faculty departments as well as administration, students, and friends.

President . . . . . JARED I. FINE

Vice President . . . . . GORDON KEYES

Secretary-Treasurer . . . . . ROBERT J. BRAY

The primary objective of this year's Student Dental Association was the attainment of greater communication within our entire dental school community. The council sponsored its own freshman orientation, and established a freshman-faculty cocktail party, supported our school's bi-weekly newspaper the Hayden-Harris Hall Herald, reinstituted student-faculty Christmas party, and re-established luncheon meetings with our Dean, Dr. John J. Salley.

Polling student opinion, selecting responsible representatives to faculty committees, and for the first time sitting on the Faculty Council, the S.D.A. has made strides toward truly representing the student body. The council has attempted to keep students informed of the vital issues such as, the character reference program, pass-fail, the honor code, and has fostered decorations of the student lounge and continued community dental health education projects. For their unending efforts, we extend our deepest appreciation to Mrs. Deloris Williams and to Dr. Mark Wagner.

Through communication, the council has attempted to increase involvement, interest, input, and pride in the dental school. At best, only a foundation has been laid.

GORGAS ODONTOLOGICAL SOCIETY

HOWARD EDELMAN

Secretary-Treasurer

GORGAS ODONTOLOGICAL SOCIETY

The Gorgas Odontological Society is a scholastic honorary society whose membership is limited to those students in the top one-third of the junior and senior class.

This past year Gorgas Odontological Society became an active organization in the affairs of the school. We sponsored three all day continuing education courses for the entire student body. The purpose of these programs was to expose the student to a different outlook on various areas of dentistry. Our regular dinner meetings with guest speakers included topics not usually covered in the school curriculum.

It is our pleasure to have Dr. Jose H. Diaz as our faculty advisor.

Gamma Pi Delta is an honorary student dental society chartered in 1965 to honor Dr. Grayson W. Gaver, who dedicated his life to prosthetic dentistry.

Membership in the society is extended to those students who maintain an average of B or higher in prosthetic dentistry and who show an interest in the field.

The objective of Gamma Pi Delta is the advancement of knowledge through the presentation of lectures and clinics.

The society sponsors a regular series of lectures relating to the practice of prosthetic dentistry. The lectures are open to the entire student body.

Faculty advisor to the organization is Dr. Suresh C. Choudhary.

President . . . . . Leo J. Rosenthal

ALPHA OMEGA

ALPHA OMEGA

Alpha Omega, as a professional fraternity, is guided and strengthened by certain definite goals. These goals give purpose to Alpha Omega and provide the basis for meaningful fraternalism.

"The objectives of the fraternity are to promote the profession of dentistry, foster and develop high standards of scholarship, leadership, and character; to inculcate a spirit of fellowship amongst all its members; to create and bind together a body of professional men, who, by scholarly attainments, faithful service, and the maintenance of ethical ideals and principles have distinction; to honor achievement in others; to strive for breadth of vision, unity in action and accomplishment of ideas . . . ."

ZIP opened the year with our famous open parties that let the frosh know that yes, there is a social life in Baltimore. Our dinner meetings make an enjoyable evening out of otherwise less popular business meetings. At the September meeting we reorganized for the year. October's meeting speaker filled the brothers in with the advantages of full life insurance. November's Thanksgiving dinner meeting, served up by our lovely ZIPETTES, was an outstanding success with the meeting part limited. December's meeting set the stage for rush.

Brothers and faculty alumni turned out in full force to welcome in the prospective pledges on Table Clinic night. We saw demonstrations of the Plak-Lite, Oral Surgery, Oral Hygiene and ZIP Functions. The Carling Brewery Tour saw additional rushes and with the wind up Speaker Night, resulted in 24 new pledges. This gave ZIP close to one fifth of the student population at B.C.D.S. for 1971-1972.

Casino Night in January was our best closed party as the ZIP House became "Little Las Vegas". February's Winter Ski Weekend tied into George Washington's Birthday to give us a great three day weekend when we needed it most. March's elections got the ball rolling on the 1972-1973 ZIP year. April's meeting saw the new officers trying their wings by inducting the new pledges. These pledges threw the best theme party in years. May's Spring Weekend Away put the cap on another great year for ZIP at B.C.D.S. You expect more from ZIP and you get it.

THE PAST

. . . AND THE PRESENT

IN MEMORIAM

Dr. Frank J. Sinnreich

On June 7, 1970, we lost Dr. Frank J. Sinnreich, who was an Associate Professor in Anatomy, Gross and Neuroanatomy. He was a member of the Class of 1961 at the Baltimore College of Dental Surgery, Dental School, University of Maryland. His constant thirst for knowledge and his love for anatomy inspired many students. We shall miss him.

Congratulations

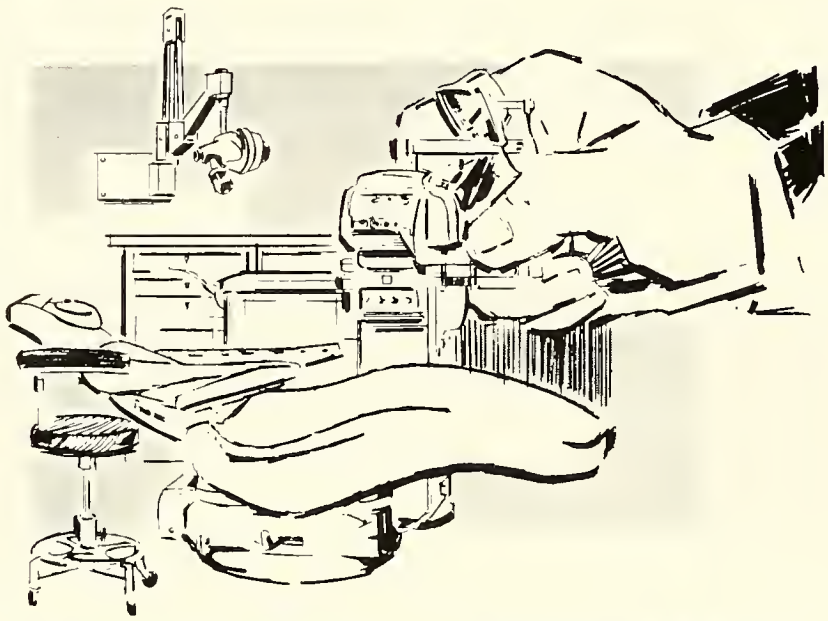
Plan your office before you graduate



Let our experienced specialists help you.

Choosing the right location means a lot to the success of your practice. So does the office design and the equipment you select.

Your Litton Dental Dealer will gladly help you solve these and many other problems that arise when you're getting ready to start your professional career. His long experience and knowledge of the community he serves enable him to suggest locations best suited to your needs. He offers office planning and design service, and two finance plans — either time purchase or long term leasing. He carries extensive stocks of proven and accepted dental supplies and equipment. He invites you to call him now — and talk about the office in your future.

Bioblend® Teeth make any denture look more natural.

Bone-like enamel. Wrap around translucency. Internally blended color. These are just a few of the esthetic refinements which distinguish Bioblend from all other artificial teeth. The result: Bioblend Teeth are now being used more often for complete dentures than any other teeth in the world. *Any other!*

Available in porcelain or plastic.

Congratulations To The Graduating Seniors

"Very ingenious presentation, sir.
But I have a practice to get going first."

With M.O.N.Y. and Paul Patterson, you can do both!

I've found in dealing professionally with dentists almost exclusively, that until your practice really takes hold, it's often tough enough finding cash for the absolute necessities. Do you agree? If so, call your professional at MONY for details.
